

# Silly Love Song

## Enchantment

If I could write a silly love song  
I would write it about you oh oh  
The words would reflect your inner beauty yea

And the melody your eyes saw too

Oh I love more and more each day and baby if I had my way I would write a song all about you boy  
And I sing all over the world oh oh oh

If I could write (write) a silly love song yea  
You know the world would never be blue no oh oh ooh ooh  
I tell them all about your sweetness yea  
And the beautiful things you do

So all I'm really trying to say  
Is baby if I had my way I would write a song all about you boy  
And I'll sing everyday yea yea do ooh ooh oooh ooh

So all I'm really trying to say  
Is baby if I had my way  
I would write a song all about you boy and I sing it all over the world yea yea

So silly  
la la (hey baby) la la  
just a silly (just a silly love song all about you oh)

So silly  
la la la la la la la  
Just a silly love song all about you you you you you
