

Woman

Danakil

Woman in this world, I need your love x2I meet you at the Green Park

 In front of my square

 Shining on the deep dark

That was always been thereWoman now I know you

 I do declare

 There is no more room to take in my heartRefrain:

 Come, come, write your name on those happy days

 Oh please, come, follow my way

 x2

 Woman, I want your love

 Woman, I need it to leave now

 Another day is gone

 And I would never be alone

 Open up your heart Celine

 Now you are mine

It's easy for you as for the yellow to shineI used to sing that song but It was so empty now

 My dream will be carried out

 I'm gonna rock it with you nowRefrain x2

 Instru.Refrain x2

 Oh Celine, come come come, follow my wayCome, come, come...
