

Trouble in Paradise

Sylvester

I can't sing to sleep at night
Just keep thinking about you
Wore a ring from my tears foreign die
And it looks like feels trouble in paradise

I remember when we talk it over
Now conversation seems to get in the way
Our love wins to share, is growing colder
It seems too little from the everyday

Maybe we can find a love together
And maybe we can find in somebody new
Who knows what the future hold before us?
I really rather I get old with you

Where do we go from here?
(Where do we go?)
Now that becomes so wrong, baby
I, I just leave this

Trouble, trouble in paradise, I need a solution
(Trouble)
Trouble, trouble in paradise, so much confusion
(Trouble)

Trouble trouble in paradise, where do we go from here?
(Trouble)
Trouble, trouble in paradise
(Trouble)

Watch this step, I watch you coming back
You wanna try again
You think that you can change woo over not
But you're wrong again

If I could I would believe
What you say is true
I heard this stories so many times
Now I really, really, really I'm over you

Trouble, trouble in paradise, I need a solution

(Trouble)

Trouble, trouble in paradise, so much confusion

(Trouble)

Trouble, trouble in paradise, where do we go from here?

(Trouble)

Trouble, trouble in paradise

(Trouble)
