

# Media Blitz

## Germs

Advisory - the following lyrics contain explicit language:

Don't steal your eyes off the TV screen  
Can you realize we're what we've seen  
Take an injection from the mad machine Don't read the papers read between the lines  
We're vision rappers and we seed the signs  
You'll play your part in the master mind We feed the science, we deal in riots  
We play by ideal time  
We're a government fix, all social convicts  
Watch the idle rhymes I've got television, I've got supervision  
No decisions for you  
Media blitz, media blitz, media hits, we rule Bleed your heart out, that's all it's worth  
Before you ever start, we planned it first  
Forget the truth-accept your curse
