

Waking Up the Ghost

10 Years

Waking up the Ghost No one knows
The secrets that I keep
No one knows
Whats in my head
I cant control
The other side of me
I have lost my grip Breaking
The pulse of a steady beat
Pleading for sanity
The voices calling out my name Now Im afraid that I
Am waking up the ghost
Not digging up the memories
That were dead to me (dead to me)
Now, now Im getting close
Closer to the enemy
Thats inside of me (inside of me) Under the skin
The soul of the guilty
Under the surface
Lonely lies
Under the weight
The sin is
Eating me alive No mercy
No forgiveness
Condemn to my own hell
The voices calling out my name Now Im afraid that I
Am waking up the ghost
Not digging up the memories
That were dead to me (dead to me)
Now, now Im getting close
Closer to the enemy thats inside of me (inside of me) Woah, Woah, Woah, Woah I am waking up the ghost
And digging up the memories
That were dead to me (dead to me)
I am waking up the ghost
And digging up the memories
That were dead to me (dead to me)
Now, Now Im getting close
Closer to the enemy
Thats inside of me (inside of me) Woah, Woah, Woah, Woah
