

Step Into the Breeze

Spiritualized

So fine, got everything I need
You got me down on my bended knees
You know to lay me down
When I'm feelin' slow Come on So fine, got everything I want
You got me hummin', oh that song
You know to lay me back
And you know that it's true My baby gives me
Much more than I can use
You know to lay me down
When I'm fellin' slow Come on
Come on The river cools
I believe
I wanna step
Into the breeze Come on
