Toys

The Epoxies

i remember times when we were young
so whats safisticated seems like nothing could go wrong
and all the nights grew long and lovely
but now the times have changed and eveythings so complicated
everything feels wrong and i dont know what seperated usyou think boys and girls are just toys made for 1 another but i got news for you even toys can't hurt eachother
but now the times haves changed and eveythings so complicated i don't know what went wrong and all the nights all long and lonely
once upon a time we had it made but it just slipped away but its too bad that things like that could get the best of usyou think that boys and girls are just toys made for one another but i got news for you even toys can hurt eachother
you think boys and girls are just toys made for 1 another but i got news for you even toys can hurt eachother
you think boys and girls are just toys made for one another but i got news for you even toys can hurt eachother
