

Pie

Rittz ft. Eightball

We need to live for today just stop looking only for pie in heavens sky.
Dont you know once there you will be brought back to planet earth
to this land again we will re occupy.
Stop wishing your life away my friend
enjoy the sun the wind and the sway my friend.
Soon youll be gathered up and taken away
yes we do need to live for today.Lets make most of the daytime f
or the days in which we are living are full of evil.
On the streets wicked men they walk around with two faces.
There are leaders that sign a peace treaty with a pencil.
Dont be like that servant you known my friend
went off to follow the sound of the show my friend.
Leaving a field of man to stand in the overflow.
Summer here but so soon comes the snow.
