

Ready 1

Grinspoon

Walking in a rain storm
Supper in the ocean
Wishing I was water
Wishing they could sort it out See the garden lover
Fighting on the freeway
Quickly Undercover
So anyone who never lost Are you ready for a change to come
There's already one already one
ALREADY ONE! Thinking like the rink think
A stagger for the fist fight
Start off with the jump team
Paranoia made it right! Hey! Are you ready for a change to come
There's already one already one
ALREADY ONE! I'll see the sibblings
Except for the last scene
Come Back
Kid come back! Are you ready for a change to come
There's already one, already one
There's already one,
ALREADY ONE!
