## Ready 1

## **Grinspoon**

Walking in a rain storm
Supper in the ocean
Wishing I was water
Wishing they could sort it outSee the garden lover
Fighting on the freeway
Quickly Undercover
So anyone who never lostAre you ready for a change to come
There's already one

ALREADY ONE! Thinking like the rink think

A stagger for the fist fight Start off with the jump team

Paranoia made it right! Hey! Are you ready for a change to come
There's already one already one
ALREADY ONE! I'll see the sibblings

Except for the last scene

Come Back

Kid come back!Are you ready for a change to come
There's already one, already one,
There's already one,
ALREADY ONE!
