Crash And Burn

Foreigner

I always thought we were in control
But our lives could never be what they were before
There's a rhythm in our love
Only you and I can feel it
Outsiders in a world where passion is a crime
So we conceal it
Now this hard road leaves a bitter taste at the bottom of my cup
But if I got you, no way, I'll never give up
Tonight, tomorrow, don't know how far we'll get
With the blue moonlight beyond another deep sunset
I'll be ready when there's nowhere to run
Yeah I been waiting for the heartache to come
Crash and burn
Deep inside your heart
Crash and burn
Oh yeah
Crash and burn
Love moves too fast
I lose control
I'll never learn
Crash and burn
Now I believe there's a way for us
There'll come a time, there'll come a day for us
Unleash this heart and let the spirit free
It's the emotional part
It's a deep and dangerous thing
But I'll be ready when there's nowhere to run
See I been waiting for the heartache to come
Crash and burn
Deep inside your heart

Crash and burn
Do you feel it?
Crash and burn
Love moves too fast
I lose control
I'll never learn
Crash and burn
Now I'm ready and there's nowhere to run

I'm waiting, waiting for the heartache to come
Crash and burn
Deep inside your heart
Crash and burn
Oh yeah
Crash and burn
Love moves too fast
I lose control
Crash and burn
Oh yeah
Crash and burn
Can you feel it?
Crash and burn
Love's straight ahead
I won't slow down
And I won't turn
Crash and burn
Crash and burn
Can you feel it?
Crash and burn
Crash and burn
Crash and burn
