

Jackie Will Save Me

Shiny Toy Guns

Early morning
Summer soul and solace
The world is watching
Yeah Vicious circle
Washing virgin halo
You're in agreement
You can understand Enter static, a gray mistake
So you both come crashing over ground
New machines have born their notion
What can I say, you're crazy Jackie, what's the problem?
You're a lady, you can stop them
Where's your baby? He's alone Kennedy
Your Kennedy All the constant
Super color motion
Burning senses
Yeah I think you're slipping
American Coca-Cola
Sugar sweetness
1963 Jackie, what's the problem?
You're a lady, you can stop them
Where's your baby? He's alone Kennedy
Your Kennedy You're a lady, only you can stop them
Where's your baby? He's alone Kennedy
Your Kennedy
