

# What's Easy For Two Is So Hard For One

## The Temptations

Well well well well  
Let's get together and go for a walk in the park  
And while we're walking we can steal a little kiss in the dark  
I wanna walk with you (I wanna walk with you)  
I wanna talk with you (I wanna talk with you)  
But it's up to you to say "Come on baby"  
If you don't hurry up I'll go crazy  
'Cause a walk in the park all alone is just no fun

### CHORUS:

What two can easily do, what two can easily do  
Is so hard to be done by one

I'm sure that you know that I love you with all of my heart  
But a love that's true really takes two to start  
I wanna do my share (I wanna do my share)  
To show you that I care (to show you that I care)  
'Cause a one-sided love will never do  
You gotta show me that you love me too  
'Cause falling in love all alone is just no fun  
(chorus)

One can build a love affair slowly  
Two can build a love affair fast  
One can make a love get started  
Two can make it last

(instrumental)

So come on and take me by the hand  
Lead me up to the preacher man  
Together we can do all the things that should be done  
(repeat chorus and fade)
