

# More Than Me

[Jon McLaughlin](#)

I hope you know what we both know you're doing

Abusing and tearing apart

Unaware or carelessly you leavin you weavin lines of broken hearts

Unfortunately Nobodys gonna spend the night beside the phone and wait for you to call

Nobodys gonna throw their back out catching you when you start to fall

Nobdys gonna hang on every word you say

or miss you when you leave

Anymore

more than me I close my eyes and I try not to see you

I need to get you off my mind

Many men have given in and fallen

I'm crawling right behind

Cause unfortunately Nobodys gonna spend the night beside the phone and wait for you to call

Nobodys gonna throw their back out catching you when you start to fall

Nobdys gonna hang on every word you say

or miss u when you leave

Anymore

More than me What?

[Jon singing with instruments] Nobodys gonna spend the night beside the phone and wait for you to call

Nobodys gonna throw their back out catching you when you start to fall

And nobdys gonna hang on every word you say

or miss you when you leave

Anymore

More than me
