

Me

Muck Sticky

Hello kids
How are yall tonite
I hope everybody's feeling good.
Were gonna have some fun
I'm gonna sing a little song that I wrote
And its for you, and for your friends, and for you momma
And it goes a little somethin like this

Well come on everybody lets go get high
Muck Sticky's so glad your along for the ride
I wanna take you to a land were nothin matters at all
Just fire up a blunt, you'll fell ten feet tall
We can smoke out of a bong,
We can smoke out of a pipe
Bump some cypriss hill bob marley alright
Damn it fells got to be a pot head
Had the munchies went to my mommas and i got fed
Full as a tick, called up my girl
Shes in love with Sticky,
So she rocks my world
Then i go to work
Fuck the bullshit
If its music or lovin adios bitch!
Puff a ultimo
Be an ultimist
Think about it to long, Ill scratch you off my list.
Thats just more for me,
And it sucks for you,
I've had bigger badder hunks of corn in my poo.
Your just a little turd
I'm the big shit
Steady bustin rhymes
And i wont quit
Going to the top, of the industry
Drop what your doin
And come and get high with me

Come and get high with me
Come and get high with me

I'll show you what you want to see
I'll give you what you really need
Come and get high with me
Come and get high with me
I'll show you what you want to see
I'll give you what you really need

Grab my ink pen, and my note book
Insecure girly's changin cloths screaming dont look

I aint got time for that
Grab the wiffle bat
Shove it up their shy ass
Choke their little kitty cat
People say I'm crazy
Guess I'm off a beat
I'll get naked take a shit on a public street
Cause i dont care

What your grandma thinks
I'll tell her that i fucked her mom
And that her daughters pussy stinks
And if your offended
Then turn this track off,
Cause it gets worse, I'm about to jack off
You need to back off
And if you dont agree
Your a hypocrite
And America isnt free

But it really aint, cause i cant smoke a jaint
Without the pigs trying to take away my bag of dank
But they can lick my tank
And ill just keep smoken

Pussy strokin budda token tone low and out spoken
I'm the sticky muck
I stand out like a poke-a-dot
Wearing my pajamas
Just call me captain smoke a lot
And if you want to have fun
And fell like your free

Turn the volume up and come and get high with me

Come and get high with me
Come and get high with me
I'll show you what you want to see
I'll give you what you really need
Come and get high with me

Come and get high with me
I'll show you what you want to see
I'll give you what you really need

Am i being rude
Do i make you sick
I dont apologize
Suck my talywacker chick
I'm just gettin high
And i thank the lord
That he gives me something to do when i board
And if your mad at me
Its ok i understand
But for all fans
Let me see your fuckin hands
I'm not a heavy metal singer or a gangster rapper
I'm just a weed smoker
Singing songs on the crapper
I'm like a oak tree
My roots are deep as hell
I like every kind of music
I was raised well
My momma taught me right
She told me not to hide
No matter what stand up for who you are inside
So I'm here today
Saying what i please
Pissin people off
Blowin ganja in the breeze
And you work so hard tryin to censure me
Here's a solution play your fuckin kenny g cd
Leave me the fuck alone
Quit your whinny bitchen
If you dont like my music, dont fuckin listen
But for those you
That like to hit the trees
Bump this muther fucker and come and get high with me

Come and get high with me
Come and get high with me
I'll show you what you want to see
I'll give you what you really need
Come and get high with me
Come and get high with me
I'll show you what you want to see

I'll give you what you really need (YO!)

Come and get high with me

Come and get high with me

I'll show you what you want to see

I'll give you what you really need

Come and get high with me

Come and get high with me

I'll show you what you want to see

I'll give you what you really need
