Dead Disco

Lapko

Skip town, slow down
Push it to the east coast
Step down turn around
Push it to the west
Needless, useless
We?re asking for too much I guess
'Cause all we get is
Dead disco, dead funk
Dead rock n' roll
Remodel, everything has been done
La la la la la la la la la
Dead disco, dead funk
Dead rock n' roll
Remodel, everything has been done
La la la la la la la la la
Tits out, pants down
Overnight to London
Touch down, look around
Everyone?s the same
World wide, air tight
No one?s got a face left to blame
And all we get is
Dead disco, dead funk
Dead rock n' roll
Remodel, everything has been done
La la la la la la la la la
Dead disco, dead funk
Dead rock n' roll
Remodel, everything has been done
La la la la la la la la la
I know, I know you tried to change things
I know, I know you tried to change
I know, I know you tried to change things
I know you tried to change, I know
