P stone(Verse 1)

You ain't going nowhere long as he's the driver

You can ride with him but he'll never be the same, same, same

One look at ya tells me that you wanna be taken higher

See the problem is you wish he could make you feel the way I do Why waste time when you know I got it?

C'mon girl, you know you want it

You know it's impossible

To get what you're looking for from him

He can't do it like me, I'm goin' prove it

I got a question can you help me out?(Chrous)

How many people can do it like me? Zero

Keep it so cool like me, zero

Girl, you know there ain't nobody, nobody else That can make it so hot like me, zero

Take it to the top like me, zero

Girl, you know there ain't nobody, nobody, zero It ain't a good look without me in your corner

You can rock with him but he'll never fill my space, space, space

One look at him tells me that he ain't the right one for you

I don't understand why you settle being here in second place Why waste time when you know I got it?

C'mon girl, you know you want it

You know it's impossible

To get what you're looking for from him

He can't do it like me, I'm goin' prove it

I got a question can you help me out? How many people can do it like me? Zero

Keep it so cool like me, zero

Girl, you know there ain't nobody, nobody else That can make it so hot like me, zero

Take it to the top like me, zero

Girl, you know there ain't nobody, nobody, zero There's only one guy that can make you feel right

That's me, myself and I

So why even try to make it work with him

When you know I'm the original How many people can do it like me? Zero

Keep it so cool like me, zero

Girl, you know there ain't nobody, nobody else That can make it so hot like me, zero

Take it to the top like me, zero

Girl, you know there ain't nobody, nobody How many people can do it like me? Zero

Keep it so cool like me, zero

Girl, you know there ain't nobody, nobody else That can make it so hot like me, zero

Take it to the top like me, zero

Girl, you know there ain't nobody, nobody, zero Girl, you know there ain't nobody, nobody else

Keep it so cool like me, zero

Girl, you know there ain't nobody, nobody else That can make it so hot like me, zero

Take it to the top like me, zero

Girl, you know there ain't nobody, nobody, zero
