Soul Jesus

Fielfraz

My name is Soul Jesus
my name is what I wane be
my name is anything you call me - call me

I say welcome to the poor and hungry
welcome to the greedy millionaires
welcome to the brave and the ones
who not dare
welcome to the world around us
welcome to the stars in the night
I invite them all to sleep beside me

My name is Soul Jesus
my name is what I wane be
my name is anything you call me - call me
crawl on your hand and your knees

My name is Mr. Soul Sister
I sing you a very simple song
I live here by the side of the lake
perhaps you've seen me riding on my
longjohn

My name is Soul Jesus
my name is what I wane be
my name is anything you call me - call me
crawl on your hand and your knees

Make the best of each day
Make the best of every week every year
as long you're here
Make the best of each day
Make the best of every dream that you dream
the world's a warm and tender machine

Make a wish, sister, put your future
into rhyme
in case just in case I drive you out of
your mind
blame it on the weather whether it rain or

it shines
and sing a very simple song

My name is Soul Jesus
My name is Soul Jesus
My name is Soul Jesus
â€¦

my name is anything you call me
crawl on your hand and your knees
