# Been Down

## Aron Burton

I dreamt you seduced me
Just walked away
I dreamt you inspired
Then rewired what I say
I dreamt you spread your bottom wings
And pulled me to the bed
But then I woke up feeling nauseous
You danced around my headChorus:
Tell me
How long, how long have I been down?
How long, how long have I been down?
How long, how long have I been down?
Down, DownI dreamt you burned my fingers
Yes, an automatic sting
I dreamt you called me beautiful
Then asked to hear me sing
I dreamt your singing invited me
To crawl within your space
But then I woke up feeling nauseous
Girl, you danced around my faceChorus:
Tell me
How long, how long have you been down?
How long, how long have you been down?
How long, how long have you been down?
Down, DownWhy can't we work when we both try?
We try, we try, we try, we try
Why can't this work, when we both try?
Why can't it work when we both try
we try, we try, we try, how we try
And how we tryI meant to sympathize I want to be your friend
I know apologizing wont erase the end
But I learn that moving on, is where I must begin
Because when our colors mixed
We couldn't fix the way they wouldn't blendChorus:
So tell me
How long, how long have we been down?
How long, how long have we been down?
How long, how long have we been down?
Down, down, yeahAnd I wish that only greatness follow you around

I hope to God, you find a way to keep from down
When you do I hope you share it all with me
Please try to understand, yeah to understand me
Just try to understand me, yeah understand meHow long, how long have we been down yeah.
Down, down, down, yeah
