Don't Make Me

Toya

Take a seat
We need to have a talk you and me
Who this girl name Shante' 389-9438
Does that ring a bell
Been callin' everyday at 12
She's callin' fequently
Guess she don't know about me
What's goin' on What's up with this
No time for silly faces
I think it's time for you tell me
What the deal is
Please don't lie to me
I need some answers
Bring out the cell phone your 2way
Let's see if she called today
Don't try to play me like I don't
Even know the game
Just tell me one thing why you think
You're getting over on me
Don't keep me waiting
Don't have the patience no
Don't make me
Don't make me loose my cool
Don't make me act a fool
Don't make me jump up, kick off my shoes
Don't make me
Don't make me click on you
Don't make me call my crew
Don't make me, don't make me don't make me
Stop the press
Who ya think ya messin' with
There's a thin line between love and hate
And you're steppin' the wrong way
You wanna lie right in my face
Do you think I'd believe you and what went down yesturday
I was at the mall and what I saw made my skin crawl
Everything I bought I shoulda dropped it all
Then start droppin ya'll
Don't look confused

I saw her with you

What ya tryin' ta prove, boy start explainin'
This is your last chance to come clean
Boy don't play with me
Numbers don't jump into pockets
Quit lyin' playa please
Just tell me one thing why you think
You've got it like that
It's getting critical
Let's get physical, so physical
Don't make me
Don't make me loose my cool
Don't make me act a fool
Don't make me jump up, kick off my shoes
Don't make me
Don't make me click on you
Don't make me call my crew
Don't make me, don't make me don't make me
Don't make me
Get crazy cause you tryin' ta play me shady
Don't make me
Accidently key your jeep
Anonymously call you phone seven days a week
Let it ring till the number change
Find it out start calling again
Don't make me
Loose my cool, act a fool
click on you
Don't make me
Jump up kick off my shoes
Pick up the phone call my crew to come after you
Don't make me, Don't make me
oh, no
Don't make me
Don't make me loose my cool
Don't make me act a fool
Don't make me jump up, kick off my shoes
Don't make me
Don't make me click on you
Don't make me call my crew
Don't make me, don't make me don't make me
