

I'll Do Anything

Montell Jordan

Supply every need that your body desires
I'll do anything for you, yeah
I'll do anything
I'll do anything
Anything you want me to
And everything that I will do
Do do, do do
You walked into the room
And the smell of you're perfume
Said that it's on and I'm so excited
Ooh, the look you gave to me
That those other guys can't see
Says that you're going home and I am invited
If you're requesting some company tonight
Someone to hold you tight
Well, that's me baby, baby
I won't make promises [Incomprehensible] if I can't deliver
So I'll do whatever to keep you satisfied, girl
I'll do anything
To keep you satisfied, tonight, tonight
I'll do anything
To keep you next to me tonight
Don't you hesitate
When you have fantasies
Tell me how I can please
And I'll do it, I'll do it
I'll nibble on your negligee
And then I might just stop
And work my way down
From your neck to the floor
And lick my way up to the top
You don't have to question
If I'm under your spell
But, ooh, if you want Montell
Then just turn it on over
Now there's no pressure
You can take your time
But please make up your mind
If you wanna be satisfied

I'll do anything
To keep you satisfied, tonight, tonight
I'll do anything
To keep you next to me tonight
I'll do anything
To keep you satisfied, tonight, tonight
I'll do anything
To keep you next to me tonight
If you're requesting my company tonight
Someone to hold you tight
I will supply every need that your body desires
I won't make promises if I can't deliver
But, baby, I promise if you surrender
Then I'll keep you satisfied
Oh, baby, tell me what you want or what you need
And I'll tell you what I'll do
Supply every need that your body desires
Baby, I'm doing this just for you
Hey girl, I said I'll do it
I'll do anything
To keep you satisfied, tonight, tonight
I'll do anything
To keep you next to me tonight, tonight
I'll do anything
To keep you satisfied, tonight, tonight
I'll do anything
