

All Die Young (Dye It Blonde)

Smith Westerns

I wanna grow old before I grow up
I wanna die with my chin up
I don't know if you mean you are the one to love
I don't know if you mean you are the one to love
Heart and soul
Never know
Heart and soul
I wanna shine before I shut up
I wanna die with my chin up
I don't know if you mean you are the one to love
I don't know if you mean you are the one to love
Heart and soul
Never know
Heart and soul
Never know
And I can tell by the look in your eyes
You didn't know the way
All die young
When love is love and when you are young
All die young
When love is love and when you are young
All die young
When love is love and when you are young
All die young
When love is love and when you are young
It takes up all my time to be in love with you
It takes up all of my time, what do I do?
All die young
When love is love and when you are young
All die young
When love is love and when you are young
All die young
When love is love and when you are young
All die young
When love is love and when you are
All die young
