

Open Book

Gnarls Barkley

Eyes filled with fire
Wish I was a better liar
It hurts when it's happening and so I cried
The winter is here and cold
I just that I could have told you
That I am safe and warm from the hell inside Come on
(Come on)
Take me
Come on
(Come on)
Take me
I am an open book The drum beats of my heart is tribal
Oh, the sweet sound of survival
Shall serenade this forest forever more
The sun would have to be frozen
For anything out there opposing
Not to be left in its own blood on the jungle floor Come on
(Come on)
Take me
Come on
(Come on)
Strike me
I am an open book, an open book When I sing a song of peace
It soothes a savage beast
Even it understands that I understand at least
So you martyrs just keep this in mind
This is the way I resign
And I am the power, so I'll only die one time Come on
(Come on)
Kill me
You have
(Come on)
To kill me
I am an open book, an open book Come on, come on
