

Love the Death As the Life

Aborym

All religion based on fear

The bible is not true

No fear at all, no sin

The illusion do not need

Every moment is the last

To be dead for next time

Love the death as the life

Constantness is the right

Love the Death as the Life Many masters came, mostly they were slain

Every form is different, separated one

Love to be in joy, beginning in end

Don't believe in parents, parents of the parents

Body-spirit-soul, even to know more...
