

Rock Out

Motörhead

Hear the music commin, loud as you can stand
You'll never be the same again
Let the beat into you, let it turn you round
Let it be your best friend

You are the future, let it be your time
You and you and you
Stay together, this is yours and mine
What we're gonna do

Rock out, rock out, rock out
Let it crush your fear
Rock out, rock out, rock out
And you can get it here

Here comes the bass, thunder in the guts
Rock 'til you can't stand
Now the guitar speaks, gonna drive you nuts
Power under your hand

You are the people, now you shine
You and you and you
Stay together, let me speak the line
What you gonna do?

Rock out, rock out, rock out
Let it crush your fear
Rock out, rock out, rock out
And you can get it here

Rock out, rock out with your cock out
Impress your lady friends
Rock out, rock out, rock out
'Til your life is at an end

No, no, no
