

# I Can Stand a Little Rain

**Esther Phillips**

I can stand a little rain  
I can stand a little rain  
I can stand a little rain  
I can stand a little pain  
But when the rain comes to the floorboard  
I can stand a little rest  
I can stand a little sorrow  
I can stand it till tomorrow  
I can stand a little strife  
Just another taste of life  
I can stand a little love  
I can stand a little love  
But when I'm on my last go-round  
I can stand another test  
I can stand another test  
Cause I made it before  
And I can make it some more  
I made it before  
And I know I can make it some more  
Made it before  
And I know I can make it some more  
Made it before  
And I know I can make it some more  
I made it before  
I can make it some more
