

Bring On the Lucie (Freda Peeple)

[John Lennon](#)

We don't care what flag you're waving
We don't even wanna know your name
We don't care where you're from or where you're going
All we know is that you came You're makin' all our decisions
We have just one request to you
That while you're thinking things over
Here's something you just got to do Free the people now
Do it, do it, do it, do it, do it, do it now Well, we were caught with our hands in the air
Don't despair, paranoia is everywhere
We can shake it with love when we're scared
So let's shout it aloud like a prayer Do it, do it, do it, do it, do it, do it now
Do it, do it, do it, do it, do it, do it now We don't care what rules you're playing
We don't even wanna play your game
You think you're cool, you don't know what you're doing
And 666 is your name So while you're jerking off each other
You bear this thought in mind
Your time has come, you better know it
But maybe you just can't read the sign Free the people now
Do it, do it, do it, do it, do it, do it now Well, you were caught with your hands in the kill
And you still got to swallow your pill
As you slip and you slide down the hill
On the blood of the people you killed Stop the killing now, stop the killing now
Do it, do it, do it, do it, do it, do it now
Do it, do it, do it, do it now
Do it, do it, do it, do it now
Do it, do it, do it, do it, do it, do it
