

We Are The Involuntary

Underoath

Just drifting along with the world
Every motion is paranoid and paralyzing
Give it up or give 'em hope
Let us all survive the wake
We were a race, a human race
Under the glass behind it all
Watch us crawl so fearfully
I might be wrong after all
But weren't we just so delicate yesterday
Sit back and think about it
Sleep it off, sleep on it
Come to, and make your motions
Listen up
There's a calling ahead
A desperation
A falling of man
We are all lost in the sound of separation
Hands in the air and love at our sides
There's gotta be something bigger
With the beating in our throats
And the tremble in our grip
This can't be it
I'll come up for peace
I'll come down for truth
I'll give in, I'll give up for you
The floors are shaking
And we've lost our step
Oh Lord, have mercy on us all
The Created Void
Let's do this for each other
Let's do this for truth
I give for you, you give for me
Let me take you somewhere I can't explain
I'm stumbling right in front of you now
I won't refrain from guiding you there
Normal is not so far
Was it just a dream
Or something much more
We are not alone
Since you agreed to follow
It's all in my head, if you want, you can look inside
There's nothing but red and all the mess I've been
It's all in the way I say what I don't mean, and mean what I don't
I need to speak of you and what is real
They will never understand
What eats at our insides
