Year Round

James Fauntleroy

It's winter
You're wrapped around me like a sweater
I was sick I'm feeling better now
Winter, it's spring
Everything is different
After loving for an hour
Got me open like a flower
After this shower, I'm laying out like summer
'Cause when you touch me, that's when I fall
Fall, fall, fall in loveSo baby can you leave I want you here now
They say it comes and goes
I wanna prove 'em wrong
So if you love me get your schedule and clear it out
I want you year round, yeahIt's fall again
Damn I think I need a sweater
Haven't seen you in forever
Now fall, it's winter
Guess I just miss you
I've been performing for an hour
Dressing room filled up with flowers
After this shower, I'm laying out like summer
'Cause when you touch me, that's when I fall
Fall, fall, fall in loveSo baby can you leave I want you here now
They say it comes and goes
I wanna prove them wrong
So if you love me get your schedule and clear it out
I want you year round, yeahYear round
I want you year roundThey say it comes and goes
Let's prove them wrong
Go get your schedule and clear it out
I need you year round (round yeah)
They say it comes and goes
Let's prove them wrong
Get my schedule and bring it here I'll clear it out for you
(Year round) Year roundIt's winter (x10)
