

# Fireball (Take 1) [Instrumental]

## Deep Purple

The golden light above you  
Shows me where you're from  
The magic in your eye bewitches  
All you gaze upon You stand up on your hill  
And be bop all around you  
They wonder where you're from, oh yeah  
They wonder where I found you Oh, my love, it's a long way  
Where you're from, it's a long way I tried to understand you  
I tried to love you right  
The way you smile and touch me  
Always sets my heart alight Your lips are like a fire  
Burning through my soul  
And people ask me where you're from  
They really wanna know Oh, my soul, it's a long way  
Where you're from, it's a long way Magic woman, wreckin' up my soul  
Things you tell me have never been told  
Magic woman, I don't know  
Electric before me, I love you so, I love you so, oh, oh oh You're racing like a fireball  
Dancing like a ghost  
You're Gemini and I don't know  
Which one I like the most My head is getting broken  
And my mind is getting bust  
But now I'm coming with you  
Down the road of golden dust Oh, my love, it's a long way  
Where you're from, it's a long way The golden light above you  
Shows me where you're from  
The magic in your eye bewitches  
All you gaze upon You stand up on your hill  
And be bop all around you  
They wonder where you're from, oh yeah  
They wonder where I found you Oh, my love, it's a long way  
Where you're from, it's a long way
