

Little Apple

The Open Sea

Little apple far, far from to the three
You belong; you belong on the open sea
Roll around with the fish and the algae
Wash away; wash away until youre good and free
If you happen to lend on a island
Take you time take it in what you find and
When the moment comes for you to roll
You will want to remember what you saw
On those blustery nights and the moon light
You can do no wrong, you can do no right
If you cross the line, no ones watching
When the world is yours but youve seen it all
Take in all you want, come back and find me
Find me, find me
Little apple round and shiny
On the ground like a lucky penny
Looking up to people passing
Wondering whos the next to cash in
Ouhh Follow the ways of your heart
It will always leads you where
You can do no wrong, you can do no right
If you cross the line, no ones watching
When the world is yours but youve seen it all
Take in all you want, come back and find me
Find me, find me
Come back and find me
Find me, Find me
Little apple far, far from to the three
You belong; you belong on the open sea
Roll around with the fish and the algae
Wash away; wash away until you find me
Til you find me, til you find me
(you can do no wrong)
Til you find me
(you can do no right)
Til you find me
(if you cross the line)
Til you find me
(you can do no wrong)
til you find me
(you can do no right)
Til you find me
(if you cross the line)
Til you find me
