

Alright

Elliott Yamin

If you want something new maybe I got what you need
And if you just want to groove you can come get next to me
Well, baby I'm trying to prove what you get is what you see
We can do what you wanna do 'cause I got no place to be I said it's alright, yeah
We got all night, woah
Said it's alright, woah
We got all night, woah I see you from across the room hot enough, you could stop the beat
And people comin' up to you but nobody that you care to meet
Something about the way you move is turning up the heat
Anything that you wanna do, anywhere that you wanna be Said it's alright, yeah
We got all night, woah
I said it's alright, woah
'Cause we got all night, woah Girl you're so fine, make my temperature rise
And maybe for a minute we can indiscriminately dip out of sight
Ah, baby, you're so right, ah, baby I can't get you out of that place in my mind
That makes a man crazy enough to make him wanna do it all night
Baby, you're so fine, oh I said it's alright, yeah
We got all night, woah
Said it's alright, woah
We got all night, woah Alright, yeah
We got all night, woah
I said it's alright, yeah
'Cause we got all night, woah
