

Electric Indigo

The Paper Kites

Never meant to cause you trouble with my coloured lies
But you holding me with something locked behind your eyes
And I've been waiting for it all to take control
You're setting me right
Cause you got something that I need
Something I can't find Distance never made me stronger - it tore us apart
And I know I left you questions and a lonely heart
But you've been waiting long enough to let it go
I'll do you right
Cause time is just a remedy
Covered in disguise And all I know
Is that I want you so
Heavy on my mind
And the feeling grows
I see your fire go
When you're dancing slow
I see your fire go
Electric indigo
(what's it gonna, what's it gonna take?)
