Fall into Oblivion

Silent Force

Content with crooked justice
Backs against the wall
Running every way he can, finds a way avoids the fall
Always in the wrong place
Never one that's right
Wonders how he got here , ends up fighting for his lifeHe must survive
He must stay aliveFall into oblivion
His life just slips away
Fall into oblivion
He must feel so betrayed
Fall into oblivion
He fights to stay alive
Blood will flows like water
Wiil he surviveStand beside the one
The one he will betray
Judgement comes with one
Strike that's on its way
Chained and sent to hell
Jail or so it seems
Wonders how he got here
Is this real or in betweenHe must be wrong
He has to be wrongLaughing at himself again
Saying there has got to be an end
Thinks of those who shakes their heads
Wonders how it happens
Thinks of those whos sitting there
Judging what will happen to himIn the cold cell
Decides to make his move
Only then he realized
Nothing left to doHear him praying
Hear him praying out your name
