

Step Up

Samantha Jade

This is somethin' for the radio
This is somethin' for the radio
This is somethin' for the radio Boy, no matter what we go through
You step up, I'll step up too
It don't matter what the haters say
As long as you are my boo No matter how hard it gets
This love will have no regrets
As long as when we stepping on
The dance floor, it's me and you Feel the rhythm of the beat, that's my heart
Cupid shot me with an arrow from the start
And you know that it's your love that's got me trapped
Every time I try to leave, you bring me back So much harder at times I cried a river
You dried my eyes and brought me back to laughter
And when I lay next to you I want to wake up
And when I break up, it's only to make up Boy, no matter what we go through
You step up, I'll step up too
It don't matter what the haters say
As long as you are my boo No matter how hard it gets
This love will have no regrets
As long as when we stepping on
The dance floor, it's me and you And if we don't step up, we'll lose our groove
So confused, don't know which way to move
Hold my hand and let me know you feel me too
Look into my eyes and tell me, baby I love you You'll never get wet, cause I'll be your umbrella
And we can make it through any kind of weather
If you step up, I'll step up,
Boy, cause I'm trying to be with you forever Boy, no matter what we go through
You step up, I'll step up too
It don't matter what the haters say
As long as you are my boo No matter how hard it gets
This love will have no regrets
As long as when we stepping on
The dance floor, it's me and you I step in a place, I feel my feet
Lifting from under me
You grab my hand, spin me around
And right before I fall You catch me and you say
Baby, it'll be okay
Just look into my eyes
And we will make another day Boy, no matter what we go through

You step up, I'll step up too
It don't matter what the haters say
As long as you are my booNo matter how hard it gets
This love will have no regrets
As long as when we stepping on
The dance floor, it's me and youBoy, no matter what we go through
You step up, I'll step up too
It don't matter what the haters say
As long as you are my booNo matter how hard it gets
This love will have no regrets
As long as when we stepping on
The dance floor, it's me and youStep upThis is somethin' for the radio
This is somethin' for the radio
This is somethin' for the radioBoy, no matter what we go through
You step up, I'll step up too
It don't matter what the haters say
As long as you are my booNo matter how hard it gets
This love will have no regrets
As long as when we stepping on
The dance floor, it's me and you
