

# This Will Destroy Us

## Weesp

We played in love long enough.  
Enough to find out it's not love.  
Cherished dreams and endless roam...  
Remember the day we left home?  
We promised to never come back again. Did they tell you this will destroy us - we never listen.  
Did they tell you this will destroy us - we never care.  
Burning a candle at both ends - this will destroy us -  
I want to prove that we still exist,  
the meaning of all this,  
I want to decide! We'll never be the ones who never tried -  
Forever the ones who gave it up.  
We drifted to far from the shore,  
We're sinking and still we want more.  
And sleepless nights should have made sense I brought you home... kissed you good bye.
