

# Get a Life

## Westworld

Is it right, the way we do each other?  
We're only human, you and I and the ones that we love  
Talking cheap exploiting what's uncovered  
If god is our witness then she'd say Why don't you get a life?  
Why don't you get a life?  
Get a life  
Get a life  
Since I met you, been pulling knives from my back  
You think you know me, but I think you're on crack  
We're in this together, you and I and the ones that we love  
Why don't you get a life? If god is our witness then she'd say  
Get a life  
Why don't you get a life?  
get a life  
We're only human, you and I and the ones that we love If god is our witness then she'd say  
Why don't you get a life?
