Sound Is The Word

Shout Out Louds

We've got to go now
it iches in my heart.
And if the cars ain't here,
well, she's probably gonna leave me here.
It's gonna take us hours and hours
only to get there.
You know that friends can only help you out,
but they can't be there.
The sound is the word, the best you've ever heard.
We need to talk,

we need to sort this out.
If I can't end this discussion
I can't go out!
It's gonna takes us years and years
to only get there.
You know that friends will allways help you out,
but they can't save you.
The sound is the word, the best you've ever heard.
The best you've ever heard.
