Complications

Killing Joke

See the sun turn green
From my penthouse window
It's different now
Because you got no shelterAlienation
By experimentation
Enjoy yourself
This is the new ageComplication, complication
Complication, complicationRansom the birth
Of a new destruction
It's different now
It's what we always wantedAlienation
Self-destruct
At the count of tenComplication, complication
Complication, complicationSee the sun turn green
From my penthouse window
It's different now
Because you got no shelterAlienation
Enjoy yourself
This is your new ageComplication, complication
Complication, complication
Complication, complication
Complication, complication
