

# Broken Down

Jeremih

Thought you were my star, thought you were the moon  
But since you've come down here, I sit so confused  
What more can I do, too speechless to say  
They told me that love would never feel this way  
See down in my heart  
I gave it a hundred and one percent all the time  
Thinking that I could live out these episodes  
No reruns suppose but then I lied, we've stayed in rewind  
And now I'm broken down, now I'm broken down  
Now I'm broken down, now I'm broken down  
Can't say I was blind, I seen this before  
For your full attention it seems I'm at war  
Consistently more, there's no more to prove  
This treasure hunts over, I found all the clues  
See down in my heart  
I gave it a hundred and one percent all the time  
Thinking that I could live out these episodes  
No reruns suppose but then I lied, this heck to divide  
And now I'm broken down, now I'm broken down, yeah, yeah  
Now I'm broken down, yeah, now I'm broken down, yeah, oh  
You make it hard to hold you down, down  
But you're so hard to do without, out  
How do you live with your mistakes, stakes?  
But then again why do I stay? Yeah
