

Chemical Courage

Jack Savoretti

Tonight has been long
I've smoked every breath
Trying to feel so alive
Tempting death

I've smiled at the angels
But I fear where they live
I've taken too much
With nothing to give

[Chorus]
My chemical courage
Has come to an end
The night once my lover
Is no longer my friend

Well tonight has gone wrong
Coz I said what I said
I've been left all alone
To lie in my bed

Thinking I'm just a fake
But nothing is real
And if I'm asking to be saved
I must learn how to kneel

[Chorus]
Now my chemical courage
Has come to an end
The night once my lover
Is no longer a friend
Playing tricks on my eyes
Shining light on my tears
Pray for a new day
To hide all my fears

Yea-a-a-ah yeah-ah wo-o-o-oh woah
And I, I can't find a way
Back to where I felt safe

[Chorus]

Now my chemical courage
Has come to an end
The night once my lover
Is no longer my friend
Playing tricks on my eyes
Shining light on my tears
Pray for a new day
To hide all my fears
To hide all my fears
To hide all my fears
