

Cut Your Teeth - Kygo Remix

Kyla La Grange

(Verse)

Didn't I warn you not to?

Didn't I warn you good?

Maybe we couldn't help it

Maybe we never should(Verse)

Didn't I say it slowly?

Didn't I make it clear?

Is it unfair to ask you?

Why it is you're still here?(Chorus)

You cut your teeth on the lack of answers, singing

Come back home and it don't feel the same

Well I've bled words onto a page for you

And you never knew my name(Verse)

Didn't I make it harder?

Didn't I leave you that?

Was it too much to ask you?

Why it is you still care?(Chorus)

You cut your teeth on the lack of answers, singing

Come back home and it don't feel the same

Well I've bled words onto a page for you

And you never knew my name(Bridge)

Come back, baby at times I'll cut you up and never let go

Sweet love, play your song

Call your mother, say take me home

Like your smile, don't say not

Another man down if you let them know(Chorus x2)

You cut your teeth on the lack of answers, singing

Come back home and it don't feel the same

Well I've bled words onto a page for you

And you never knew my name
