Subspace

Funker Vogt

let's leave reality
enter the metaverse
creating an avatar
for your new lifeget connected
come on in
join the death match
play the gamedon't trust an avatar
here you are on your own
this place is called the subspace
it is where you'll fight aloneyour dreams are turning real
you feel so alive
like you've never felt before
a life beyond realityget connected
come on in
join the death match
play the gamedon't trust an avatar
here you are on your own
this place is called the subspace
it is where you'll fight alone
this place is called the subspace
it is where you'll die alone
