Hummingbird

Cheryl

Im getting dizzy here
Running in circles
Holding onto your coat tails
Cupids been busy
Shooting his arrows
While I follow the love trail
They led me straight to you
And all I had to do
Was look in my tracks
And double back
I turn around and look what I foundAll this time ive been running in circles
You were right behind
I guess I could've met you in the middle
How come it never crossed my mind?
Humming birds around my head
Humming birds around my head
I ran into your arms
Wound up dizzy instead
Now I got butterflies, blue jays
Pretty things in the air out there
Ever since I found this, been
Humming birds around my headHes so tricky yeah
Coming full circle
I always knew how to get there
And he was so picky that
He took his eye off the sparrow
Flew out after the nightingale
And heaven for a while
He took them fast and lost his style (?)
Circled his tracks
Double back
Turned around and look what you found
All this time ive been running in circles
You've been right behind
I guess I could've met you in the middleHow come it never crossed my mindHumming birds around my head
Humming birds around my head
I ran into your arms
Wound up dizzy instead
Now I got butterflies, blue jays

Pretty things in the air out there
Ever since I found this, been
Humming birds around my headI got tiny little bee stings on my heart
Where the love blooms
Honey can I only be with you?
Sitting underneath the shade
Tree in the park where I first met you
Funny how the light can change your viewOhHumming birds around my head
Humming birds around my head
I ran into your arms
Wound up dizzy instead
Now I got butterflies, blue jays
Pretty things in the air out there
Ever since I found this, been
Humming birds around my headHumming birds
Humming birds
I ran into your arms
So dizzy instead
Butterflies, blue jays
Oh in the air out there
Ever since I felt
There's been
Humming birds around my head
