Bottom Of The Well

Airbourne

I gotta get out, I gotta break free
Ain't gonna live in misery
My minds made up, I'm leaving today
Come hell or high water, I will break these chains
Gonna scratch my way, or claw my way
And dig my way, back to the top
'Cause I never say die, I never give in
I never stop giving it all that I got
I'm breaking out of hell
From the bottom of the well
It's a long way down
From the bottom of the well
I gotta get out
From the bottom of the well
It's so dark and cold down here
I'm all alone but I got no fear
'Cause I have the will to beat this fate
And get back up to the light of day
I'm gonna scratch my way, claw my way
Dig my way, back to the top
'Cause I never say die, I never give in
I never stop giving it all that I got
I'm breaking out of hell
From the bottom of the well
It's a long way down
From the bottom of the well
I gotta get out
Digging and clawing
And scratching and kicking my way
Back to the top I will fight

For the light of day
Gonna find the way, yeah
I made a death wish and it came true
I'm under water black and blue
But if you think I'm done you better think again
'Cause I don't know the meaning of death
I'm gonna scratch my way, claw my way
Never stop giving it all that I got

I'm breaking out of hell
I'm breaking out of hell
From the bottom of the well
It's a long way down
From the bottom of the well
I gotta get out
From the bottom of the well
I gotta get out
The bottom of the well
I gotta get out
From the bottom of the well
I gotta get out
The bottom of the well
I gotta get out
From the bottom of the well
It's a long way down
From the bottom of the well
I gotta get out
I'm breaking out of hell
