Bad Karma

Warren Zevon

Was it something I did in another life?
I try and try but nothing comes out right for me
Bad karma killing me by degreesI took a wrong turn on the astral plane
Now I keep on thinkin' my luck is gonna change someday
Bad karma it's uphill all the wayI can't run, can't hide, can't get away
It must be my destiny
The same thing happens to me every dayBad karma comin' after me
Bad karma killin' me by degrees
Bad karma, bad karmaIt's a dog's life and it's not my fault
Ought to hang my picture in the all time losers' hall of fame
Bad karma it's a low down dirty shame for youI can't run, can't hide, can't get away
It must be my destiny
The same thing happens to me every dayBad karma comin' after me
Bad karma killin' me by degrees
Bad karma, bad karma
