Black Symphony

Vanilla Ninja

Black light from a rising sun
Too dark to find my way home
Black rain from a clear blue sky
Feel cold - my heart is frozen
Black dress on a wedding day
Church stands all deserted
I've tried to find some brighter note
inside my mind I finally wrote

A Black symphony
When darkness steals the light from day
Black symphony and all my colours fade away
It overshadows my whole life
This broken melody
Black symphony

Black leaves on a florid tree
No birds - silent springtime
Black tears in a smiling face
No one who would dry them
Black tones in a lullaby
So strange - it makes me shiver

I've tried to find some brighter note
inside my mind I finally wrote

A black symphony
When darkness steals the light from day
Black symphony and all my colours fade away
It overshadows my whole life
This broken melody
Black symphony

Since you've been gone
This house is not a home
I raise my head up to the sky
Look for a sign it helps me by
My hope remains
One day I will erase

A black symphony
When darkness steals the light from day
Black symphony and all my colours fade away
It overshadows my whole life
This broken melody
Black symphony
