Summer Breeze

Thomas Godoj

She dances
To old records
Brings
The speakers out
She takes me
To the rooftop to
Sing out loudShe said
It's all so easy
Don't you lose
Your faith now
Everything's
So small from up hereShe's like a summer breeze
On cold and dark winter days
Just like a star
Inside the roaring sky
And I know that she has got
My cure for heart desease
She's like a summer breeze
She's like a summer breezeLost in clouds
Until I found
My ground again
She covers
My with her honesty
She's heaven sent
Yeah heaven sentShe jumps around
Does Cartwills
In the livingroom
She's so carefree
What would I be
All I needShe said
It's all so easy
Don't you lose
Your faith now
Everything's far
From hereShe's like a summer breeze
On cold and dark winter days
She's like a star
Inside the roaring sky
And I know that she has got

My cure for heart desease
She's like a summer breeze
She's like a summer breezeWe share the shade
At the waterfront
She let's me be who I want
She spreads her magic
Every day
She's like a summer breeze
Inside the roaring sky
She's like a summer breeze
Love I can't denyShe's like a summer breeze
On cold and dark winter days
She's like a summer breeze
And I know that she has got
My cure for heart desease
She's like a summer breeze
She's like a summer breeze
