Dark Samaritan

This Ending

I'm your dark angel
I fullfill all your dreams
Join me in darkness
you will never be alone
I'm your messiah
In my own sick twisted way
I know you need me
To help you... TranscendI am your way
I'm your solution
Your Dark Samaritan
Devoid of emotions
Releive you of pain
Your Dark SamaritanFeed you my sickness
Draining you of inner pain
You're growing colder
As your life is stripped away
There's no regret left
All there is a hollow shell
My wings are spread now
To embrace you in my hellI am your way
I'm your solution
Your Dark Samaritan
Devoid of emotions
Releive you of pain
Your Dark Samaritan
