

Nineteen Stars

Meg & Dia

Don't tell me, you're done for
I don't need to hear, you're done for
You can tell me what you are running from
I need you, more than you need you I can see you're really, really running
May I ask you, where you gonna run to?
And you think you're living as a ghost now
Not quite, heaven's ugly angel We all feel like we're breaking sometime
I won't let you go tonight Stay awake, stay awake, survive
I've got nineteen stars that I
Gave your name
Tonight I wanna scream
Wanna scream your name
Starlight, my life can save
You're my wish tonight Don't tell me, nothing matters
I'll tell you what, what matters
Bare feet in the summer
Open windows at night You think that no one needs you
You have nothing to see through
Well, I need you, I need you
Don't I count in this fight? It's morning now
Time to suffer again
A safety that drunk can't find Stay awake, stay awake, survive
I've got nineteen stars that I
Gave your name
Tonight I wanna scream
Wanna scream your name
Starlight, my life can save
You're my wish tonight No one can catch me, the way that you catch me
Way that you keep me when I'm out of time
What if I need you, when I can't see you?
And I'm running out of life No one can catch me, the way that you catch me
The way that you keep me when I'm out of time
What if I need you and when I can't see you?
I'm running out of life, life, life, life, yeah Stay awake, stay awake, survive
I've got nineteen stars that I
Stay awake, stay awake, survive
Stay awake, stay awake, survive I wanna scream
Wanna scream your name
Starlight, my life can save

You're my wish, oh, you're my wish and I'm sad
You're my wish tonight
